# **Eva Heals Her Tooth**

Eva was a 9 year old girl who loved to play with friends, if she wasn't playing with friends, she was dancing with butterflies in tall wild grass in her backyard.

She lived in the countryside, just outside the biggest city.

It was one evening when Eva and her family were sitting down to a yummy dinner.

Eva bit down into her pizza and everyone heard her yell.

„Owe, my tooth hurts !”

Her mom gave her a serious look and said „I am going to make an appointment to see the dentist as soon as possible.”

Eva sighed, gulped down the rest of her soda, wishing she would never have to go to see the dentist again.

The next morning came. As usual Eva ate a bowl of cereal and went to brush her teeth before cultural exchange school.

“I don’t understand” thought Eva disappointed “I brush my teeth 3 times a day just like the dentist told last time, why does my tooth hurt ?” As she stood in front of the bathroom mirror, Eva saw a brown spot on the hurting tooth.
